

Dear FCC,

I understand K-Love may be replaced in our community. This radio station provides family oriented listening and I can listen to it any time of the day even with my toddlers in the room. I do not have to worry about offensive jokes, or music. If K-love is not aired locally there are no other stations that play strictly Christian music. This is important enough that I have been a financial supporter of this ministry. I believe the public has a right to this kind of programming and removing this station seems like another attack on my religious freedoms.

Thank you
